DESCRIPTION

Démarrage is the first collaborative album by producers **Applescal** and **David Douglas**. The idea of creating a track inspired by cycling has been in their minds for several years. David Douglas and Applescal both share a deep passion for the road. In the summer of 2023, they decided to come together to write a track. Full of inspiration and atmospheric ideas, this evolved from a rough concept into a collection of tracks. What initially began as an idea for a single track quickly grew into the full-fledged electronic album *Démarrage*.

TRACKLISTING

- A1. Ritual
- A2. Breakaway
