DESCRIPTION

2013 release. Pressed on 180 gram black vinyl and housed in a gatefold sleeve. Remastered for a vinyl release. This 15-track compilation spans the years 1995-2004, featuring key tracks from all their albums as well as live recordings and many unreleased tracks. **The Brian Jonestown Massacre** is a psychedelic rock band originally from San Francisco, California, led by guitarist/singer **Anton Newcombe**. Since 1995 The Brian Jonestown Massacre has released numerous albums, first for Bomp! Records, the label which gave them their start, and later for TVT and Tee Pee. BJM has been essential in the development of the modern U.S. garage scene, and many L.A. and SF musicians got their start playing with Newcombe, including **Peter Hayes** of **The Black Rebel Motorcycle Club**. Originally Newcombe was heavily influenced by **The Rolling Stones'** psychedelic phase – the name comes from Stones guitarist **Brian Jones** combined with a reference to cult leader **Jim Jones**, but his work in the 2000s has expanded into aesthetic dimensions approximating the UK shoegazing genre of the 1990s, and incorporates influences from world music, especially Middle Eastern and Brazilian music.
