### DESCRIPTION

180gram, red color vinyl. Limited to 500. Originally released in 1974, **Nine Days Wonder** with their third album took the opportunity to do a recording session at London's Chipping Norton Studios in September 1974. With guest musicians **Dave Jackson** on flute and saxes (of **Van der Graaf Generator**-fame) and keyboarder **Steve Robinson (2066)** and then-and-early-**AERA**) the album shows the band on its musical peak. The album is richly textured and features a mellow progressive rock with slightly glam-rock touches and reminds to **David Bowie's** *Ziggy Stardust*. Without the jazz elements of the first album, *Only The Dancers* is another step forward into the upcoming glam-rock sound but with that special German Krautrock feel.
