DESCRIPTION

MLiR is one of those rare creative partnerships where personalities and talents perfectly match, an exquisite balance of similarity and polarity leading to ingenuity. In the case of MLiR, this dynamic has resulted in the form of consistently vibrant takes on current, past and future global dance music, an artistic expression fueled by equal parts tireless record digging and masterful studio wizardry. Their two previous EPs on Studio Barnhus count among the label's most played and loved, and the forthcoming debut album *Pulpo Fiction*, released on the Stockholm label, takes it to the next level with a staggering track list of 16 new recordings featuring vocal talent as diverse as Kenyan rapper **Nah Eeto**, American poet **Oliver Grimball** and Swedish soul singer **Cosima Olu**. The music is as wild a ride as ever with MLiR at the controls – ranging from the nostalgic to the futuristic, the deep to the popstastic – with a firm base in the kind high-powered, light-footed dancefloor material the duo is so beloved for. Also features **Arnau Obiols**, **Kamohelo**, **Janne Tavi**, and **Kamohelo**.
