### DESCRIPTION

Over the last twenty-five years, **Robin Rimbaud – Scanner** has traversed the experimental terrain between sound, space and image, connecting a bewilderingly diverse array of genres – a partial list would include sound design, film scores, computer music, avant-garde, contemporary composition, large-scale multimedia performances, product design, architecture, fashion design, rock music and jazz. *Fibolae* offers up a world that splinters between melancholia and penetrating energy. Inhale opens the album in an intimate manner, introduced with answer phone messages from those that have slipped away in recent years, from **John Balance** of **Coil**, **DJ Tom De Werdt** of Lowlands Distribution, **John Everall** of Sentrax Records, his mother, his brother, his grandmother and more, before exploding into a blinding percussive attack with twin drummers battling against a hovering melodic tension. Combining digital technologies, software and live instrumentation *Fibolae* is both a rhetoric of mourning and a celebration of music to empower. Warm, organic, sensual, passionate and frequently angry, it's an album that radiates with possibilities. Originally released on limited vinyl in 2017, it has been repressed in 2021. CD version includes extra track.

"*Fibolae* is deeply personal, where a melancholy mood underscores moments. This introspective album roams depths of emotion through a refined range of textures." –The Wire.

"Wonderfully strange and wholly captivating. Both colossal and imperious, tender and regretful. A consummate and compelling achievement." –Uncut

### TRACKLISTING

01. Inhale
02. Footpaths
03. Nothing Happens Because of a Single Thing
04. Seaven Teares
05. Caesura
06. Spirit Cluster
