DESCRIPTION

Following on from Brutalism's audio-visual experiences in St. Gertruds church in cologne, this album contains eight excerpts from live sets, specially produced for the unique space of the building designed by **Gottfried Böhm**, in an attempt to capture its architecture and sound. Since 2015, Brutalism's goal has been to establish a format at the interface between pop and club culture, as well as "academic" electronic music, in which media art, visuals, sound installations and dance performances play a central role in an immersive and architecturally memorable environment alongside the sophisticated musical program. Featuring **Måtyrer**, **lomi**, and **Dornen**.
