DESCRIPTION

Despite their Michigan roots, with their hearts anchored in the golden age of 1970s German Krautrock, **Fling ii** celebrate the sound of that sensational season of experimentation. In the chords of the band dwell the typical motorik style of **Neu**, the percussive obsessions of **Can**, as much as the pulsing, hypnotic electronic textures of **Cluster** and **Kraftwerk**. The absolute protagonist of this adventure back in time is the legendary Boss Super Phaser PH-2, the dual-circuit modulation pedal that shines through the entire development of all the tracks; it's the main demiurge of deep resonances, of impulsive intergalactic excursions, of dust and mists in perpetual motion. The sound is as dreamy and cosmic as ever, revealing such instrumental rigor in which the strongly emotional blend of the original sources of inspiration finds a perfect balance between rhythm and dynamics.
