DESCRIPTION

Axes and layers, but also the axes, for striking and cutting. This work embraces the muscular energy of avant-jazz and delicate and dreamlike introspection. The musical references are to the America of **Tim Berne** and the Europe of **Marc Ducret** – the polyphony and rhythmic pulse of the urban environment. But the connections, even if not strictly musical, reach far; "Axis: Bold as Love" by **Jimi Hendrix** and "AlasNoAxis," **Jim Black**'s debut album. More than one axis: axes.
