### DESCRIPTION

After *Future Sounds Of Kraut Vol. 1* (CPT 621LP), Compost presents *Vol. 2*: 17 modern krauty electronic tracks (nine of them exclusive) inspired by **Kraftwerk, Can, Neu!, Cluster, Harmonia, Klaus Schulze**, and many others. Curated and compiled by Compost artist **Fred und Luna**. The collage on the cover – like on *Vol. 1* – was exclusively made by the fantastic artist **Norika Nienstedt** from Kraut metropolis Düsseldorf. Future sounds of Kraut, what's it all about? Maybe *Vol. 2* will bring it to light for you. It's not easy at all or even impossible to define the musical genre "Kraut." Nevertheless, Compost Records and Fred und Luna strike out on the path to find the diverse elements of German electronic music of the 1970s and 1980s and their effects on the new German and international music scene. After the immense success of *Vol. 1*, a follow-up volume was soon started, tying in stylistically with its predecessor and furthermore – as this is one basic principle of the series – expanding the musical spectrum by adding new krauty elements step by step. So now, besides stylistic followings to *Vol. 1*, you will hear some more club oriented and experimental tracks. Feel free to listen and get krautified! Featuring **Sankt Otten, Ghost Power, formAnt B, Thomas Fehlmann, Roman Flügel, Sordid Sound System, I:Cube, Lucas Croon, Minami Deutsch, Gilgamesh Mata Hari Duo, Kosmischer Läufer, Young Solo, Schlammpeitziger**, and **Halwa**.
