DESCRIPTION

Released for the first time on any format, Cold Spring Records presents the soundtrack to the 2020 sci-fi horror film *Sputnik* (directed by **Egor Abramenko**). The bleak and hauntingly atmospheric film is accompanied by an impressively heavy soundtrack from **Oleg Karpachev**, who uses bombastic percussion, stirring strings, and otherworldly synths to convey the horror unfolding on screen. Set during Cold War Soviet Russia, the ominous film starring **Oksana Akinshina, Fedor Bondarchuk, and Pyotr Fyodorov Jr** follows the story of a cosmonaut returning from space with a mysterious extraterrestrial organism; essential viewing for those with a penchant for *Alien*-style body horror. Immense orchestral dissonance with an industrial edge. File next to **Steven Price, Hans Zimmer, Ben Frost, In Slaughter Natives**.
