### DESCRIPTION

*In Hiding* features a carefully curated selection of the crucial compilation tracks from horror electronics/post-industrial project **Burial Hex**, gathering and remastering them together, striving to create a resonance between disparate sources, forming an extraordinary new experience. After nearly 20 years of activity from this restless project, many Burial Hex compilation tracks have been released, often of a very unique and high quality as **Clay Ruby** seemed to enjoy taking compilation submission requests as an opportunity to offer new perspectives on their already bizarre and eclectic work. Many of the tracks were from cassettes, vinyl, or digital-only releases for labels such as Brave Mysteries, Aurora Borealis, Clan Destine, Small Doses, and Buh, appearing here on CD for the first time – or in the case of "Penitential March," never-before released. Clay Ruby has remixed each track, in some cases re-envisioning them specifically to live together coherently in this incarnation, making this collection more like a new studio album rather than another anthology compilation. Reveling in the intimate, feral surrealism that we have come to know without parallel from this intoxicating project, *In Hiding* is an excellent view into the romantic Promethean theater of Burial Hex, whether for the neophyte or the adept. For fans of: **Coil**, **SPK**, **Psychic TV**, **Trepaneringsritualen**. CD in matt-laminate digipak with artwork by **Nathaniel Ritter**.
