### DESCRIPTION

2024 repress expected in April. With the demise of the group **Wire** in 1980, founder members **Bruce Gilbert** and **Graham Lewis** joined forces to create **Dome**. With the assistance of engineer **Eric Radcliffe** and his Blackwing Studio Dome took the ethic of "using the studio as a compositional tool" and recorded and released three Dome albums on their own label in the space of 12 months: *Dome* (July, 1980), *Dome 2* (October, 1980), and *Dome 3* (October 1981). A final fourth album, *Will You Speak This Word: Dome IV* was released on the Norwegian Uniton label in May 1983. These albums represent some of the most beautifully stark and above all timeless exercises in studio experimentation from early 1980s alternative music scene. Previously issued in the out-of-print *Dome 1-4+5* box set in 2011. Floating-point re-master by **Russell Haswell**, August 2011. Cut at Dubplates & Mastering by **Rashad Becker**, August 2011. New artwork by **Dave Coppenhall**. Includes download card.
