### DESCRIPTION

Lo-fi was rather an involuntary attribute in the '90s. '90s hip-hop instrumentals with the sound aesthetics of old 12-bit samplers are the blueprint for everything that runs under chill and lo-fi beats today. For this double-LP, **Sepalot** dug deep into his demo box, listened to countless DAT cassettes and dug up 36 pearls from the period 1996-2002. Sepalot: "I had to laugh a lot at times and was sometimes embarrassed, but the innocence of the early days also has an insane power. The best beats demos and sketches from my early days now get their moment." Old demos from DAT tapes.
