DESCRIPTION

2015 repress. Volume two of **Sun Ra**'s classic *Heliocentric* recordings from the 1960s. The astonishing sessions that went light years beyond "free jazz" improvisation to create a music of deeply-felt, explosive and gentle gesture made from sound itself without reference to previous notions of melody or harmony are now reissued on 180 gram vinyl with Sun Ra's original, self-created cover art. Recorded by **Richard Alderson** on April 20, 1965, this set of tunes finds Sun Ra breaking ground by using synthesizers and having the Arkestra musicians double on percussion. More explorations of outer space by the spokesman for the space age. Manufactured in the U.S. by the original label. Digitally re-mastered.
