### DESCRIPTION

"**Juan Manuel Cidron** has always been immersed in music. As a child, he fell in love with a radio adorned with flashing lights – radio is now one of his professions. He was equally captivated by the music that enveloped him. With whatever little money he had as a child and during his youth, he would spend all his money on records and analog machines. Music is everything to him, and that's why we understand his compositions as a celebration of life. The vastness that his electronic keyboards offer us is akin to the immensity of the desert, snow, and wind. Albums like *Tau* or *Sonido Para Acciones* belong to the realm of Spanish electronic music and are cherished by enthusiasts of sonic poetry. This vinyl edition holds a special place as it marks a return to analog, a medium Cidron reveres and continues to embrace. In this way, it becomes a classic, a testament to his unwavering commitment to the quality that arises from the harmonious blend of natural and artificial rhythms. The result is always him: a tangible presence that brings us closer to dreams and the unadorned face of the world." –**F. Labordeta Blanco**

All tracks were written, produced, and mixed by J.M. Cidron between 2017-2019 at the Extrarradio Studio in Almeria.
