DESCRIPTION

Volume 3. On September 13th, 2023 a musical collision occurred between **The Band Whose Name Is A Symbol** and **Dead Sea Apes**. With a room booked and a full moon glowing, the doors were locked and for the next 120 minutes, the nine members created nirvana/chaos where, with no direction, all possibilities were endlessly explored. Like hearing the lost **Amon Düül** recording you've waited 50 years for, **Glenn Branca**'s wall of guitars, the shamanic cacophony of **The Boredoms**, psych melters **Comets on Fire**, and so much more. It is punk; it is fury; it is noise in its rash extremity, psychedelic in form. It feels as though everyone in that room was connected to a universal mind decoder, as wave after wave of pure sonic free flowing energy built and built to climatic zeniths. Here is the recording of nine friends who gathered on *Eine Nacht*.
