### DESCRIPTION

It started as an experiment, freestyling in the low-tech glamor of Melbourne's Soundpark studio, no rules, no speaking, no plan. **Gemini** telepathy wrought wild. Total delirium. The soundtrack to a film Kubrick never made. Guided by Neptune retrograde. **Gemini 4** is the project from **Hugo Race (Dirtmusic, ex-Bad Seeds)** and **Michelangelo Russo (The True Spirit)**. Their electronic take on the blues, *John Lee Hooker's World Today*, evaporated critics and audiences in 2017, merging the blues master's legacy with a psychedelic and hypnotic atmosphere, expanding the sonic space and shifting towards a more electronic horizon. In *Gemini 4*, they have reached that horizon, and it has become the space itself in which they experiment beyond limits in a zodiac-flavored brew of instrumental electronica somewhere between soundtrack and chillout.
