DESCRIPTION

Psychedelic hard-rock with occult overtones by this London based band featuring drummer **Ric Parnell (Atomic Rooster, Spinal Tap)**. This is their sought-after sole album, originally released in 1970 and housed in a cover designed by **Roger Wootton of Comus**. **Horse** formed in 1968 when former high school friends **Rod Roach** and **Adrian Hawkins** started writing songs together. Rod had previously played lead guitar with various groups (included a brief stint with **Andromeda**). Horse final line-up was established in early 1969 with Adrian Hawkins on vocals, Rod Roach on guitar, **Colin Standing** on bass, and Ric Parnell on drums. Horse started gigging around London, sharing stage with acts like **Deep Purple**, **Joe Cocker**, and **David Bowie**, soon establishing a large following due to their exciting live shows. After receiving interest from several record companies, they finally signed with RCA Records. The Horse self-titled album was recorded at Olympic Studios, produced by Rod Roach, and released in 1970. It's a fantastic example of post-psychedelia and early hard-rock/proto-metal, dominated by Roach's killer fuzz-wah guitar and Hawkins powerful vocals. First ever vinyl reissue in original artwork. Sourced from the original production tapes. Includes insert with liner notes. RIYL: **Black Sabbath**, **Andromeda**, **Open Mind**, **Black Widow**, **Bulldog Breed**.
