DESCRIPTION

There's not much to add, two of the greatest Heavy Psych bands of the scene join the forces to give birth to an incredible split album. Packed with 32 minutes of the highest quality heavy rock you can find out there; a joint venture which can happen only once every 100 years. Heavy Psych king-pioneers **Nebula** bring to life three brand new songs, recorded expressly for this incredible project. Three new gems which follow their latest *Holy Shit* and *Transmission*. **Black Rainbows** add in three songs of their own, handpicked from the recording session of their latest success *Superskull*, released back in 2023. Delivering two stoner in-your-face heavy fuzz pieces and one heavy space tune to celebrate this awesome collaboration. The cover art pairs perfectly with the vision and vibe of the album and is credited to the mighty **Simon Berndt**.
