DESCRIPTION

Alessandro Cortini (Nine Inch Nails) and Japanese noise legend **Masami Akita (Merzbow)** share a mutual love for the EMS Synthi, a British synthesizer from the early '70s notorious for its patch matrix, portability, and distinct tone. Astonishingly, these two disparate artists meld into a single sound as they flex the analog circuitry of the EMS Synthi in new ways; giving this classic synth a modern workout and proving that, in capable hands, a 40-year-old analog synthesizer is a tool for the ages. Metallic shimmer print on heavy duty jackets; 180 gram vinyl.
