● KOMPACT

DESCRIPTION

20-year anniversary re-issue! *Okie Dokie It's The Orb On Kompakt* the 13th album of one of Britain's most prized cult bands. The music of **The Orb** only has an intensive effect when taken in as a long-playing full length. And it proves with this lovingly conjured collection of songs brought together like a collage. The first half of *Okie Dokie* showcase The Orb's love for minimal techno and Schaffel/Shuffle as it is so obviously present in the foreground, while the second half is only reserved to the classic Orb-ish ancestral domain. There are wonderful guest appearances by **Schneider TM** and Kompakt's ambient-guru **Ulf Lohmann**. As many of you know, there is so much history about The Orb you could write a book. Since **Jimmy Cauty** and **Alex Paterson**, in the flush of euphoria invented chill out and ambient house in the first summer of love 1988, an incredible amount of things have occurred. After 2002, The Orb found with Kompakt a new ambient-loving partner and release a row of singles and play live, as the trimmed-down version as **Le Petit Orb**.

TRACKLISTING

- A1. Komplikation (3:55)
- A2. Lunik Tm (5:50)
- A3. Ripples (6:00)
