DESCRIPTION

Oktober is the second EP release under **Wolfgang Voigt's** mythical **GAS** project (it follows *Modern on Profan*, 1995). The two compositions were originally released in 1999 on Mille Plateaux, and then reissued partially in 2016 on *GAS BOX*. *Oktober* is finally released on Voigt's own label Kompakt, pressed on 180 gram vinyl in its original artwork. This reissue features "Tal 90" (instead of the original A side) – a predecessor to the GAS project originally recorded in 1990 under the alias **TAL**, it was released as a part of the *Pop Ambient 2002* collection (KOM 050LP/KOMP 014CD). With its sampled strings, horns and guitars, "Tal 90" soundtracks a more uplifting side to what is typically accustomed to being the sound of GAS. The title track "Oktober" is a dense, hypnotic affair that conjures a unique vision of dub techno that few have been able to replicate. A monumental soundtrack to uncertain times.
