### DESCRIPTION

*Piscalabis II* is a super-sonic fan, featuring the organic yet robotic atmosphere of *Piscalabis I* and, of course, **Golden Bug**'s own sonic experimentation. The ten new tracks on this follow-up are even wilder and stranger, in the best sense of the word. The rhythms are heavy, the guitars of **Lionel** from **The Limiñanas** are razor-sharp and the distorted grooves of the drum machines convey curious electronic impulses! The introductory track "Paradis," with its choral, fairytale and epic atmosphere, gives way to a series of slow, raw and bewitching tracks, such as "Hi No Tori," with guest appearance by Japan's **Vega Vega**, and the heady, mechanical "Ricochet," "L'E et Domino," driven by the voice of **Anna Jean** from **Juniore**, "Boomerang," which rides the wave of dub with shamarnic tinges, "Poc a Poc," which plunges us into the world of acid-western, or the retro-futuristic "Autobahn" embodied by the voice of **Ruben Kielmannsegge**. *Piscalabis II* builds its own psychological environment to inhabit. And the deeper you go into it, the more synesthetic the music becomes, the more the textures swirl together, igniting the senses.
