### DESCRIPTION

Nephew of world-famous sitar player **Ravi Shankar**, **Ananda** made an important impact in the '70s psychedelic scene by combining Western electronics and Indian music in order to create stunning instrumental jams. The jungle safari-tinged *Sá-Re-Gá Machán* was released in 1981 but still maintains a certain soundtrack feel to it, more akin to previous decade excursions. Still a magical clash of eastern and western musical dichotomy.
