DESCRIPTION

A.R. & Machines is the solo project of one **Achim Reichel**. Released in 1971, this album still retains a magical touch. Ranked between the most original kraut albums of all the time, *Die Grune Reise* (aka *The Green Journey*) really is a trip. Turning his back to the original beat movement, Reichel embraced the infinity of a multi-layered sound, experiencing the most prolific path of prog rock while joining the obscure meanders of the lysergic renaissance.
