DESCRIPTION

Following on from the UK Top 20 success of 2022's *30 Something* (LMS 5521698), and the Top 10 for 2023's *Optical Delusion* (LMS 5521858), London Records launch an extensive 2024 campaign for **Orbital**, revisiting 1991's seminal debut *Orbital (The Green Album)*. *The Green Album* heralded a brave new world for the UK musical landscape (**DJ Mag** would later decry that the album "rewrote the rule book for rave"). Brothers **Paul and Phil Hartnoll** eschewed formulas and clichés, choosing to explore wider textures, rhythms and stranger mind spaces within dance music. Their resulting album would enjoy both chart success and an enduring legacy, influencing and inspiring artists from **Björk** to **Bicep**, with the Hartnoll brothers going on to collaborate with artists as diverse as **Madonna**, **Ennio Morricone**, **Kraftwerk**, **Sleaford Mods**, and **Professor Brian Cox**. 33 years since its original release, the album is revisited.
