### DESCRIPTION

In 1978, **Kiss** simultaneously released solo albums from all four members. **Gene Simmons**, most associated with Kiss's heavier side, is revealed to be a closet Beatles fan as evidenced by "See You Tonite," "Always Near You," "Man of 1,000 Faces," and "Mr. Make Believe." But the surprises don't stop there: choirs and string arrangements, 70s funk, and good time rock n' roll also appear alongside heavy rockers like hit single "Radioactive." This eclectic mix of material is supported by guests like **Aerosmith's Joe Perry**, **Cheap Trick's Rick Nielsen**, **Bob Seger**, **Donna Summer**, and **Janis Ian**.
