DESCRIPTION

Deep Meaning is the debut album by **Maria Wildeis**, a Cologne-based artist and expert in real-time sound design for installations. The tracks on *Deep Meaning* oscillate between club and experimental music and are characterized by a lightness unique to debut works. Particularly notable is the inventive use of synthetic, organic, and sampled vocal elements. Voices constantly morph into melodies and back; words become notes, chords turn into text. Maria's real-time approach to composing is evident throughout, making this album an unscripted adventure. Before you uncover the deep meaning, it has already swept you away. Maria Wildeis researches spatial aspects in art and music, working with digital sound modeling and procedural sound synthesis. She also runs Gemeinde Köln, an art space in Cologne, Germany, which she founded in 2018. Tracks 2 and 4 co-written by **Daniel Ansorge**. Additional production by Daniel Ansorge and **Jens-Uwe Beyer**. Mixed and mastered by Daniel Ansorge at Magazine Studio Cologne.
