### DESCRIPTION

2024 re-release. *Seven Up* is the third studio album by **Ash Ra Tempel**, and their only album recorded in collaboration with American Ph.D. in psychology, **Dr. Timothy Leary**. The cover art for *Seven Up* was designed by famous Swiss artist **Walter Wegmüller**. Originally recorded in August 1972 at Sinus Studio in Berne, Switzerland, remixed September 1972 at Dierks Studios in Stommeln, Germany. This re-release of *Seven Up* has been carefully overseen by **Manuel Götsching** himself. This edition features the full original text for the "7 Levels Of Consciousness" by Timothy Leary in English, plus a previously unreleased glimpse view of the original scripts, including notes and mark ups as well as partly unreleased photos from the recording session. **Julian Cope**'s review and remarks in his book *Krautrock sampler* states: "The greatness of Ash Ra Tempel burned so brightly on *Seven Up* that there is really nothing else like it. **Hartmut Enke** and Manuel Götsching here returned to their riffy roots. It can hardly be called a retro act, though, as the context of music is everything. And with **Dierks** at the controls, even the **New Kids on the Block** would have sounded psychedelic. Leary and **Barritt** present the greatest twin-vocal of all time, coming on like **Jagger** and **Morrison**?. In chaos it was conceived and in chaos it was recorded."
