DESCRIPTION

Corben presents one of the most awaited albums of the MM Saturns saga, *Peachland*, an introspective retro-futuristic journey where early electro and downtempo go hand in hand in order to create a cybernetic vision of the '80s subculture. It's like an inner spaceship that immerses you in infinite space, allowing you to reach unknown universes. Pure no-wave nostalgia filled with contagious vocoders and hypnotic synthesizers that shape a dreamlike and unsettling landscape, in which Corben shows what could be the most sentimental and human side of an imaginary and futuristic artificial intelligence.
