## DESCRIPTION

In 2007, **Céu** debuted her self-titled album, becoming one of the select Brazilian artists nominated for an American Grammy in the World Music category and is widely regarded as one of the most influential Brazilian artists of her generation. With now six albums to her credit, Céu has transcended borders, captivating audiences on five continents at prestigious festivals such as the Montreal Jazz Festival, Coachella, Roskilde, Rock in Rio and Lollapalooza. She is renowned for her collaborations with both Brazilian and international artists like **Duran Duran**, **Herbie Hancock**, **Jorge Ben Jor**, **Gilberto Gil**, and **Emicida**. Recorded in the USA, the album features musical production by Céu as well as Brazilian musician and producer **Pupillo** (drummer of **Nação Zumbi**) and American multi-instrumentalist and arranger **Adrian Younge** (co-founder of **Jazz Is Dead**). Recorded at Linear Labs Studio in Los Angeles, *Novela* is Céu's sixth studio album. It was captured live on tape, in a dynamic moment that demands total presence. A number of artists feature on the record: American MC and songwriter **LadyBug Mecca**, Franco-Senegalese singer and songwriter **anaiis**, American singers **Loren Oden** and **Jensine Benitez**, American DJ and producer **Frankie Reyes**, French artist **Hervé Salters (General Elektriks)** and Brazilian national treasure **Marcos Valle**. In *Novela*, ancient technologies, healing, creaminess, bolero, polished stars, echoes of soul music, things of the earth, rap, and whispers to guides emerge. Throughout the record, there is a reaffirmation of the author's fearlessness, committed to her time, in the complexity and beauty of creative work. Always keeping the diversity of Brazilian music on the horizon.
