MUSICA PER IMMAGINI

DESCRIPTION

Heinrich Dressel's *Polarlys* is the first album of unreleased tracks published by Musica Per Immagini, or a soundtrack for an imaginary noir film set in the icy waters of northern Europe, inspired by the book *The Mystery of the Polarlys* by **Georges Simenon**. Drones and ethereal atmospheres are paired with a cinematic background in order to describe the frost of the northern seas and the restlessness of the journey: beyond the classic analog sounds, a specific use of additive and vector synthesis particularly in vogue during the '90s and typical of vintage synthesizers.
