DESCRIPTION

NOTON and The Vinyl Factory present the release of the new edition of **Carsten Nicolai's** *∞ Infinity (Endless Loop Color Edition)*, under his alias **Noto**. This new limited edition box set celebrates Carsten Nicolai's beloved interactive installation, *bausatz-noto*, currently featured at The Vinyl Factory: Reverb exhibition at 180 Studios. The exhibition features an expanded version of Nicolai's artwork *bausatz noto* (1998) – an interactive piece centered around four Technics SL-1210 turntables and a selection of colored vinyl records. Visitors are invited to select and play the records, each of which has been cut with ten unique locked grooves on each side. As Nicolai explains, "the different colors indicate different sound material, from the very abstract to the graphic" that users can loop and layer to create infinite permutations and combinations. Previously released as a sold-out signed edition with a hardback book, this 2024 box set edition brings the installation into your own space. Comprised of twelve 10" colored vinyl records, each featuring 20 unique locked grooves (10 per side), the concept remains the same: Nicolai provides the tools to build your own soundscapes. The records are sleeved in twelve custom-made archive folders, housed in a silk-covered handmade box with debossed artwork. Limited to 1000 copies worldwide, each box set is hand-signed and numbered by **Carsten Nicolai** himself. Includes 16-page booklet with exclusive installation photography.
