## DESCRIPTION

**Fakear** needed to reinvent himself. To return to the essence of his project, with spontaneity and above all, honesty. Ten years after his first steps in the industry, Fakear now returns to his roots, without looking to the past with nostalgia or contempt; but rather by contemplating his past self with kindness. And this new wave got expressed in one word: *Talisman* (NOW 017LP), his last album that came out in February 2023. But such a comeback doesn't just completely stop after only one album – even though it was particularly noteworthy to the media and the audience. And neither does the inspiration for Fakear. This is how *Hypertalisman* was born. Like the following of this rebirth and this new inspiration for **Théo**. Like an extension of *Talisman*: a new dimension, a parallel universe. "*Talisman* was me returning to my roots. *Hypertalisman* is a window to the future." Also featuring **OOGO** and **Kavya**.
