DESCRIPTION

Ohr present a reissue of **Birth Control's** *Operation*, originally released in 1971. Re-release of the second album of the Berlin outfit on the original Ohr label. Produced by the famous photographer **Didi Zill** in 1971 at Hansa Studios.

"*Birth Control's* second album, *Operation*, stands as one of the band's finest recordings, getting the vote as the second-best album of 1971 by one of Germany's leading music magazines. *Operation* has Birth Control employing a nine-piece string section as well as a smaller brass entourage in order to produce a larger sound, and while their progressive air is just beginning to flourish, a rather large difference in musical strength and instrumental craft is noted right away. Not fully abstract or left-of-center just yet, the powerful crunch of **Bruno Frenzel's** guitar surely leads the way, dominating the rhythms of every track while complimenting the aeronautics of the keyboard passages..." -**Mike DeGagne**, AllMusic
