DESCRIPTION

Nicolas Jaar shows he is paying attention to the masses by issuing a widely called for vinyl press of his **A.A.L. (Against All Logic)** album 2012-2017. Originally issued as a digital-only release back in February of 2018, it's slowly grown to become one of the most cherished releases in the entire Other People discography. Much like **Kerrier District** did to disco, A.A.L. (Against All Logic) borrows heavily from the samples and sounds ingrained deep within Jaar's listening habits and evidently a record collection packed to the brim with classic soul, house, and most importantly, funk hooks. Keenly twisting these sounds and filtering them through a studio set up that's leaning heavily on the beefed-up kick drums and reverb units to make a well-executed homage to these sounds, pieced together with the inherent idea of making the listener unable to resist the urge to move, be it in a bedroom, basement, or just sat in work staring at a computer screen. A.A.L. (Against All Logic) is both a well-executed homage to all of the above references, yet also just a really strong and enjoyable record from Nicolas Jaar. Its undeniable popularity digitally is sure to see the vinyl evaporate in no time at all.

- "2012-2017 is much looser and less formal, in part because it appears to be just a collection of tracks, and in part because no one would be expected to sit quietly in the presence of a kick drum and piano vamp . . ."
