DESCRIPTION

Drum To Death is a collection of 11 experiments by **Peter Kernel** and their favorite drummers. Throughout 2020 to 2023, Peter Kernel invited eleven of their most esteemed drummers to send them rhythms with which they composed these eleven tracks. Each song was written and dedicated to the inherent drummer as an ode of appreciation to the beat creator. These eleven songs come together as a unique collection of an odd collaboration based on appreciation for different styles and people, a microworld made of different feelings, patterns, colors, intentions and attitudes. The album features collaborations with **Bernard Trontin (The Young Gods)**, **Cosmic Neman (Zombie Zombie)**, **Beatrice Graf**, **Domi Chansorn**, **Ema Matis**, **Tam Bor**, **Hugo Panzer**, **Julian Sartorius**, **Kevin Shea (Storm & Stress, Lydia Lunch)**, **Simon Berz**, and **Simone Aubert (Hyperculte, Massicot)**.
