DESCRIPTION

The distance from **Ricardo Villalobos'** last field trip *Thé au Harem d'Archimède* (PERL 043CD) in 2004 to the present epic album is a galaxy of electronic expression through sound, independent from time and space. It is said that funk is defined by the notes that are not being played. The space between the notes here is so vast, that funk becomes transformed into the spirit that creates unfathomable emotional adventure. The rules of dynamics between 0 and 1 shift the relation from reality to relaxation. Previously-unreleased, mixed, free-floating sessions are made out of natural, secret ingredients from the limbic system of astro-Aztecs. They evolve from rituals, ending in the release of the sinuous percussion ghost from the machine who breathes out a score for easy living, which sounds like a primordial soup aerosol of funky molecules and molluscs.
