### DESCRIPTION

The *Chill Pill* compilation hits volume VI. By now a staple in the landscape of "summer vibe" chill out compilations, Public Possession continues to gather artists to create a version of the perfect soundtrack for a "healthy dose of relaxation and hedonism." As usual the label presents an interesting mix of upcoming and more established artists, always looking for interesting combinations and unexpected twists. The idea to the compilation is clearly inspired by legendary compilation series such as *Cafe Del Mar* and *Buddah Bar* but has quickly found its own language: easy listening – slightly oddball – very fun. Featuring **Coper**, **Shanae**, **Poeji**, **ddwy**, **DJ City**, **Eden Burns**, **Suncream**, **Jamma-Dee**, **Cluf Cluf**, **AV Moves**, **Alex Ho**, **Grand Voyage**, **Cesar Wogue**, **Boys' Shorts**, **babyxxan**, **Andras**, **Martin Brugger**, **Nice Girl**, and **Aasthma**.
