DESCRIPTION

Originally released in 1980, **Stiv Bators** first solo effort. Mr. Bators was the man who destroyed **Rocket From The Tombs**, from which he hijacked half the members to found one of the most influential American punk bands to have existed, **The Dead Boys**. Stiv has turned in his broken teeth for a more power pop oriented solo career. This is not an album recorded by a has-been former punk idealist; instead, it's a true step forward into another unknown arena packing all the glare and attitude that remained from the last. 50th anniversary reissue.
