## DESCRIPTION

*Evening Air* is the result **Loren Connors** and **David Grubbs**'s first trip to the recording studio in the two decades since their first duo album, *Arborvitae* (Häpna). *Arborvitae* stood out for its spell-binding, utterly unhurried meshing of electric guitar (Connors) and piano (Grubbs). With this long-awaited return, Connors and Grubbs take turns trading off on piano and guitar, with Grubbs at the keyboard for the two gently expansive pieces on the first side and Connors taking over the instrument for three gorgeous miniatures on the flip, including an album-closing and perfectly heart-stopping version of Connors's and **Suzanne Langille**'s "Child." The album's wildcard is "It's Snowing Onstage," which finds the two locking horns with two electric guitars before Loren blew the minds of all present in the studio by unexpectedly switching to drums. Loren Connors is one-of-a-kind, one of a handful of deservedly storied musical greats gracing listeners with their presence, and with *Evening Air* David Grubbs again demonstrates that he's a stellar musician who also ranks among the most simpatico of collaborators.
