DESCRIPTION

Containing the hits that were only deemed misses by the critics that condemned Oi! as some kind of subcultural fad that favored football and violence way above the bloody good tunes that should by rights occupy the higher rank, **4 Skins' The Unreleased Radio & Studio Sessions** encapsulates that energy at its finest. From formidable swarms of police brutality and political injustice, the underlying (and unyielding) socio-political messages experienced from the streets that resonated with every estranged clockwork skinhead of the day are bound to be ticked on every track. After the atmospheric crash of "One Law for Them," dropped in amongst the *Radio* and blistering *Bumper Sessions* with "Evil" sitting squarely in its unpolished center is the ska-inflected gallop of "Seems To Me," an unreleased tune reinforcing the notion that there was more to Oi! than meets the laces.
