DESCRIPTION

The strange thing about the music of **Anima** is that it's often considered as strange, while it's actually very natural. It has a free spirit, analog to nature. For this release the natural spirit is strengthened by the participation of indigenous American flute player and composer **R. Carlos Nakai** who did a series of concerts in the US and Europe with **Paul** and **Limpe Fuchs** in the 1980s. As with almost all Anima work, the natural feel manifests itself not only by the musical approach and sounds generated by metal, wood, stone and air, but also by the absence of electronic devices. This LP is a reissue of a rare privately released cassette from 1988 and was recorded by the Bayerischer Rundfunk.
