### DESCRIPTION

One of the best kept secrets of the Italian hardcore scene. **Manimal** took shape in the mid-1980s, in the tumultuous era of the roman underground uprising. They've been actually one of the first hardcore bands – with label mates **High Circle** – rising from the ashes of the capital city punk scene. In 1985 they were part of the historical German pack, together with **Negazione** and **Indigesti**, a tour that made history. In 1986 they recorded their sole self-titled album. The record saw the light on the legendary Contagio Records and was a furious example of the contemporary attack on the system. Eleven tracks in total, three of which previously appeared on *Subject To Blackout*, a cultish American tape compilation (with early **Offspring**, **Excel**, and **Attitude Adjustment**). No compromise classic Italian hardcore with fast guitar riffs, elaborate bass lines and hard-hitting drums. A necessary rediscovery that further delineates the greatness of the Italian scene in the early eighties.
