DESCRIPTION

Mazza Vision's *Ohm Spectrum* represents the first album of this new project created by two founding members of **Tone Rec** and **Dat Politics**, joined by occasional collaborators. Recorded during the bizarre pandemic summer of 2020, the six slow-burning tracks take drone-rock-noise as rhythm to new hazy territories by stripping down the essence of acoustic/electronic sound into dry husks and organizing them into strangely harmonic and hypnotic structures. A radical collision of instrument manipulations, heady electronics, field recordings, and heartfelt ambient soundscapes forms part of a puzzling, lo-fi dissonant movement that seems to seep out of the concrete walls. All music composed and mixed by Mazza Vision (**Pailliot, Collet**): electronics, drums, synthesizer, sampler, organ, bass, accordion, guitar, field recordings, contact mic, minidisk. RIYL: Tone Rec, **Seefeel, Tomaga, Fuck Buttons**.
