DESCRIPTION

Legendary band **Soft**, the driving force behind Kyoto's party scene and underground music culture, releases their new album *Passing Tone* from their home base Softribe to commemorate their 30th anniversary! This release marks the first time since the 2018 album *Tokinami* that Soft has released new music. It also comes on the heels of the 2021 vinyl reissue of their 2010 album *Tam (Message To The Sun)* on the labels 17853 Records, TUFF VINYL, and Crosspoint. Guest appearance by former member **PRITTI**. The album was created by the three founding members: guitarist **SIMIZ**, drummer **PON2**, double bassist **UCON** plus engineer and electronic musician **KND**, a mainstay of the Kyoto music scene. Evoking the energy of a live performance, the music pulses with psychedelic soundscapes and dub influences. The 30th anniversary live shows in Osaka and Kyoto were met with resounding success, and the Asian tour followed suit. Experience the enchanting sounds of music born from Japan.
