DESCRIPTION

Atrax Morgue, the artistic moniker of the Italian musician **Marco Corbelli**, stands as an enigmatic figure within the realm of industrial and noise music. Revered for his gloomy sonic explorations, Corbelli forged a distinctive path through the auditory landscape, leaving an indelible mark on the Italian (and worldwide) underground music scene. Employing very minimal electronic instrumentation, Corbelli sculpted an auditory experience that transcends the conventional confines of music. Corbelli's compositions, characterized by their sick nature, evoke a sense of otherworldly melancholia, challenging the listener to confront the boundaries of their auditory comfort zone. *Negative Frequencies* is a profound musical testament that emerged from the visionary mind of the Italian artist Marco Corbelli, released in February 2006. The album encapsulates the diseased and bleak essence for which Corbelli's project, Atrax Morgue, is renowned. Corbelli, through his meticulous approach, manipulates synth and analog tape to craft a sonic landscape that challenges conventional notions of music, inviting introspection into the darker recesses of the human psyche. In a poignant turn of events, this seminal work is now set to be reissued for the first time on vinyl, marking a significant moment in Atrax Morgue's discography. This reissue not only amplifies the significance of *Negative Frequencies* within the avant-garde canon but also serves as a poignant reminder of Marco Corbelli's enduring artistic legacy. Tragically, shortly after the album's CD release in 2006, Corbelli took his own life, rendering this album one of the last tangible echoes of his creative brilliance. This vinyl reissue feature also a meticulously crafted four-page A3 folded booklet, containing the original notes and drawings by the talented Marco Corbelli from the CD edition. Additionally, this booklet is enriched with a collection of new annotations and previously unreleased photographs, graciously provided by **Andrea Marutti**. Edition of 199.

TRACKLISTING

A1. N.F. Part 1 (17:04)

B1. N.F. Part 2 (16:52)
