RHYTHM**

DESCRIPTION

Limited black bio-vinyl. 600 copies worldwide. Includes obi-strip and download card. **The Green Child** has grown into four people. Originally the recording project of **Raven Mahon** (furniture maker and member of **Grass Widow, Rocky**) and **Mikey Young** (recording engineer and band member of **Total Control, Eddy Current Suppression Ring, Shutdown 66**), The Green Child now boasts **Shaun Gionis** (of **Boomgates**) on drums and **Alex Macfarlane** (who runs the excellent label Hobbies Galore) on guitar and synths. This invigorated quartet from Naarm/Melbourne began writing the group's third album *Look Familiar* in 2023, working up demos in rehearsals, animated by having live drums present in their chameleonic sound. The Green Child still draws heavily on a refined psychedelic pop, with Raven's scenically measured vocal often shadowing the ebb and flow, but the energy of having four people in the room resulted in making the songs more upbeat.
