### DESCRIPTION

VEYL welcome **Harlem** to the label for a new seven track album titled *Bait*. The Stockholm-based duo of **Martin Thomasson** and **Johan Skugge** bring a vast history of production behind them, operating since the early aughts and known for their work in dub and minimal techno. *Bait* ventures into new territory for the project, delivering infectious strains of body music, new beat, industrial and beyond coupled with soul-stirring vocals which quickly dig beneath the skin. The release is about everyday manipulation, soft power and persuasion. We all exist in a world in which corporate management techniques are deployed in our everyday lives, nudging each other for short-term gain, slowly hallowing out any lasting trust while ultimately all being crushed by a hyper-capitalist system. From the opening synths of the title track to the ominous ending notes of "Night Vision", you also uncover funky grooves and diabolical floor shakers which is reminiscent of something from the past but exist perfectly in this corrupted new world. As is customary for VEYL, the striking cover art was photographed by **Tomaso Lisca**, and it's a fitting piece for the record, depicting a tantalizing well-oiled machine, all while something menacing lurks under the hood. Includes poster and download.
