### DESCRIPTION

Veyl welcomes **Harlem** back to the label with a new eight-track LP titled *Cage*. The Stockholm-based duo of **Martin Thomasson** and **Johan Skugge** last appeared on the imprint with 2021's **Bait**, and the project now returns diving deeper in to their infectious cocktail of menacing electronics. Bringing with them a vast body of work, ranging from dub to minimal techno, with Harlem the pair fuse electro, no wave, post-punk, disco, proto-body, dub, hip-hop, and grime, creating a unique sound that cannot be categorized. *Cage* opens with "Shut Your Body," a muscular piece which drills into the surface, setting the stage for what's to come. Next up is "Fantasy Scan" a dance floor ready jam that picks up the pace and lures listeners into the pleasure dome. "Blow by Blow" brings a nihilistic energy to a fictional scenario that takes its cues from the past while remaining firmly in the now. "Kiss The Steel" continues on the slow burning path, dropping listeners into a dream like state, blurring the lines of reality and plunging them into a surrealist nightmare or reverie. "Dummy Up" comes roaring back, injecting a dose of electro and body that sounds like a soundtrack to your favorite cult gathering. With "Sleuth" comes the repetitive grind of a man at work, searching for the unknown, unlocking new mysteries along the way. Towards the finale, "Contact High" brings back a seductive dance, ready to move bodies and stir emotions. Closing things out is "Wiggle Walker," returning listeners to a drifter's journey, a wanderer's melody that carries them to the end – or is it just the beginning?
